REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art of record does not disclose or fairly suggest a two-piece golf ball comprising a cover with a flexural rigidity from 78 to 196 MPa made from a composition of thermoplastic polyurethane and an isocyanate compound selected from the group consisting of aromatic isocyanate compounds, hydrogenated products of aromatic isocyanate compounds, aliphatic isocyanates and alicyclic diisocyanates used in the amounts from 0.2 parts to 5 parts by weight of the polyurethane. While the prior art discloses the polyurethane the addition of the isocyanate compound is not fairly suggested. The prior art also fails to disclose the spin rate.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
